

Specialty Care. Close to Home.

Pinckneyville Community Hospital Specialty & Outpatient Clinic is an outpatient service in which healthcare specialists provide diagnostic evaluation, treatment, and/or management of health conditions not generally part of family practice care.

Each week, medical specialists travel to Pinckneyville Community Hospital to help our patients get the specialized care they need, close to home. These specialists work closely with the patient's primary care provider and other health professionals to ensure continuity and appropriateness of care. Our specialty clinics include cardiology, eye surgery, neurology, rheumatology, oncology, OB/GYN, gastroenterology, nephrology, podiatry, pulmonology, general surgery, ENT, orthopedic, and wound care.

Many of our outpatient physicians require a referral from the patients care provider. To refer a patient or schedule an appointment, please call the phone number listed on the calendar. All other inquiries may be directed to the Specialty Clinic at Pinckneyville Community Hospital at 357-5907.
